Exam Date & Time	15-10-2022 03:00:00

Subject : 2HOMEO_S01

Question ID:- 230

The term "anosognosia" means

1. Loss of spatial recognition
2. Loss of position sense
3. Loss of memory
4. Loss of appreciation that something is wrong.

Options:-

- 1, Option ID :- 917,
- 2, Option ID :- 918,
- 3, Option ID :- 919,
- 4, Option ID :- 920,

Question ID:- 188

A full time amelioration of the symptoms, yet no special relief of the patient after prescription of a remedy signifies:

1. Improper selection of curative medicine
2. Latent existing organic conditions that prevent improvement beyond a certain stage
3. Suffering from high grade inflammation
4. Idiosyncratic patient

Options:-

- 1, Option ID :- 749,
- 2, Option ID :- 750,
- 3, Option ID :- 751,
- 4, Option ID :- 752,

Question ID:- 128

Consider the following statement:

Rapid transmission of impulses through purkinje fibres are due to

- A. The purkinje fibres are large in size than other conducting fibres of heart.
- B. Extremely high level of permeability of the gap junctions within purkinji fibres.
- C. Purkinje fibres have very few myofibrils.
- D. Purkinje fibres have more fibrous tissues.

Choose the most appropriate answer from the options given below.

1. A, B and C only.
2. A and D only.
3. A and C only.
4. C and D only.

Options:-

- **1, Option ID :- 509,**
- **2, Option ID :- 510,**
- **3, Option ID :- 511,**
- **4, Option ID :- 512,**

Question ID:- 127

The sensory modality which does **not** reach the thalamus directly is.

1. Proprioception
2. Gustation
3. Nociception
4. Olfaction

Options:-

- **1, Option ID :- 505,**
- **2, Option ID :- 506,**
- **3, Option ID :- 507,**
- **4, Option ID :- 508,**

Question ID:- 148

The commonest form of obstetric palsy encountered in puerperium is.

1. Erb's palsy
2. Torticollis
3. Foot drop
4. Carpel tunnel syndrome

Options:-

- **1, Option ID :- 589,**

- **2, Option ID :- 590,**
- **3, Option ID :- 591,**
- **4, Option ID :- 592,**

Question ID:- 137

One unit of packed RBC raises haemoglobin by _____ gm/dl

1. 0.5
2. 1
3. 1.5
4. 2

Options:-

- **1, Option ID :- 545,**
- **2, Option ID :- 546,**
- **3, Option ID :- 547,**
- **4, Option ID :- 548,**

Question ID:- 177

Dreams of running water is a symptom of:

1. Natrum Muraticum
2. Natrum Sulpuricum
3. Stramonium
4. Opium

Options:-

- **1, Option ID :- 705,**
- **2, Option ID :- 706,**
- **3, Option ID :- 707,**

■ **4, Option ID :- 708,**

Question ID:- 125

Pain of stretch of CBD or Gallbladder is referred to following areas **except**.

1. Epigastric region
2. Tip of right shoulder
3. Inferior angle of left scapula
4. Inferior angle of right scapula

Options:-

- **1, Option ID :- 497,**
 - **2, Option ID :- 498,**
 - **3, Option ID :- 499,**
 - **4, Option ID :- 500,**
-

Question ID:- 200

Who amongst the following propagated the blood-letting method of treatment?

1. Galen
2. Hippocrates
3. Hahnemann
4. Brousseau

Options:-

- **1, Option ID :- 797,**
- **2, Option ID :- 798,**
- **3, Option ID :- 799,**
- **4, Option ID :- 800,**

Question ID:- 187

Isopathic method of treatment of disease was propogated by:

1. Galen
2. Lux
3. Stahl
4. Boulduc

Options:-

- 1, Option ID :- 745,
- 2, Option ID :- 746,
- 3, Option ID :- 747,
- 4, Option ID :- 748,

Question ID:- 236

Which Lung Parenchyma Disease is 'NOT' the etiology of Chronic Cor-Pulmonale

1. Churg- Strauss Syndrome
2. Sarcoidosis
3. Cystic fibrosis
4. Pulmonary lymphangioleiomyomatosis

Options:-

- 1, Option ID :- 941,
- 2, Option ID :- 942,
- 3, Option ID :- 943,
- 4, Option ID :- 944,

Question ID:- 132

All the Hormones use Adenylyl cyclase-cAMP second messenger system for the action **except**

1. Calcitonin
2. Oxytocin
3. Secretin
4. Glucagon

Options:-

- 1, Option ID :- 525,
- 2, Option ID :- 526,
- 3, Option ID :- 527,
- 4, Option ID :- 528,

Question ID:- 209

Arrange the following sub-chapters of Urinary organs of Kent's Repertory in order of their appearance from first to last:

- A. Urethra
- B. Urine
- C. Bladder
- D. Kidney
- E. Prostate

Choose the **correct** answer from the options given below:

1. A, B, C, D, E
2. E, C, D, A, B
3. C, D, E, A, B
4. C, D, A, B, E

Options:-

- 1, Option ID :- 833,
- 2, Option ID :- 834,
- 3, Option ID :- 835,
- 4, Option ID :- 836,

Question ID:- 184

Match List I with List II

List I	List II
Symptom	Medicine
A. Tea taster's cough due to inhaling of fungus	I. Mercurius
B. Sensation of a hair on the tongue	II. Gelsemium
C. A human thermo meter, Sensitive to heat and cold	III. Silicea
D. Nervous affection of cigarmakers	IV. Kali hydroiodicum

Choose the **correct** answer from the options given below:

1. A - III, B - I, C - IV, D - II
2. A - III, B - IV, C - I, D - II
3. A - IV, B - I, C - III, D - II
4. A - IV, B - III, C - I, D - II

Options:-

- 1, Option ID :- 733,
- 2, Option ID :- 734,
- 3, Option ID :- 735,
- 4, Option ID :- 736,

Question ID:- 146

The genotype of Klinefelter syndrome is:

1. XXX
2. XO
3. XXY
4. XYY

Options:-

- 1, Option ID :- 581,
- 2, Option ID :- 582,
- 3, Option ID :- 583,
- 4, Option ID :- 584,

Question ID:- 164

Match List I with List II

List I	List II
Tumour Markers	Carcinomas
A. Calcitonin	I. Prostate Cancer
B. Alpha fetoprotein	II. Carcinoma of colon
C. Prostate specific antigen	III. Medullary carcinoma of thyroid
D. Carcino-embryonic antigen	IV. Liver cancer

Choose the **correct** answer from the options given below:

1. A - II, B - IV, C - III, D - I
2. A - IV, B - II, C - I, D - III
3. A - III, B - IV, C - I, D - II
4. A - II, B - III, C - I, D - IV

Options:-

- 1, Option ID :- 653,
- 2, Option ID :- 654,

- **3, Option ID :- 655,**
 - **4, Option ID :- 656,**
-

Question ID:- 133

Which one of the following is NOT a labile cell?

1. Transitional epithelium of bladder
2. Stratified squamous cell of cervix
3. Hematopoietic stem cell
4. Hepatocyte

Options:-

- **1, Option ID :- 529,**
 - **2, Option ID :- 530,**
 - **3, Option ID :- 531,**
 - **4, Option ID :- 532,**
-

Question ID:- 129

The taste sensation from the posterior one third of the tongue is transmitted through:

1. Trigeminal Nerve
2. Glossopharyngeal Nerve
3. Facial Nerve
4. Hypoglossal Nerve

Options:-

- **1, Option ID :- 513,**
- **2, Option ID :- 514,**
- **3, Option ID :- 515,**
- **4, Option ID :- 516,**

Question ID:- 191

Given below are two statements:

Statement I: Indigenous plants procured in fresh state are used by mixing their freshly expressed juice immediately with equal parts of spirits of wine.

Statement II: All fermentation of the vegetable juice will be at once checked by the spirits of wine mixed with it and rendered impossible for the future.

In light of the above statements, choose the **correct** answer from the options given below:

1. Both Statement I and Statement II are correct.
2. Both Statement I and Statement II are incorrect.
3. Statement I is correct but Statement II is incorrect.
4. Statement I is incorrect but Statement II is correct.

Options:-

- 1, Option ID :- 761,
- 2, Option ID :- 762,
- 3, Option ID :- 763,
- 4, Option ID :- 764,

Question ID:- 204

'Orgasm of blood' is mentioned in which chapter of Kent's Repertory

1. Generalities
2. Female Genitalia
3. Fever
4. Head

Options:-

- **1, Option ID :- 813,**
 - **2, Option ID :- 814,**
 - **3, Option ID :- 815,**
 - **4, Option ID :- 816,**
-

Question ID:- 201

Which potencies did Kent suggest for acute disease of patients who prove every remedy they get?

1. 30th, 200th and 1M
2. 30th and 200th
3. 200th and 1M
4. 30th and 1M

Options:-

- **1, Option ID :- 801,**
 - **2, Option ID :- 802,**
 - **3, Option ID :- 803,**
 - **4, Option ID :- 804,**
-

Question ID:- 155

The most common site of nose bleed in children and young adults:

1. Floor of nose
2. Inferior turbinate
3. Little's area
4. Middle turbinate

Options:-

- **1, Option ID :- 617,**
- **2, Option ID :- 618,**

- **3, Option ID :- 619,**
 - **4, Option ID :- 620,**
-

Question ID:- 235

A 65 years old male alcoholic presents with 2 months history of swelling of the abdomen with shifting dullness and ankle oedema, shortness of breath on exertion. On examination there are no signs of chronic liver disease. His pulse is 112/min with atrial fibrillation, apex beat is displaced downwards and laterally.

What is the most likely diagnosis?

1. Deep vein thrombosis
2. Pericarditis
3. Nephrotic syndrome
4. Cardiomyopathy

Options:-

- **1, Option ID :- 937,**
 - **2, Option ID :- 938,**
 - **3, Option ID :- 939,**
 - **4, Option ID :- 940,**
-

Question ID:- 134

Type I Diabetes Mellitus is associated with all of following EXCEPT:

1. Insulinitis
2. Beta cell mass reduced
3. Amyloidosis change
4. Beta cell degranulation

Options:-

- **1, Option ID :- 533,**

- 2, Option ID :- 534,
- 3, Option ID :- 535,
- 4, Option ID :- 536,

Question ID:- 231

'Velcro' crackles are the characteristic auscultatory findings of

1. Pulmonary TB
2. Legionella Pneumonia
3. Interstitial Lung diseases
4. Lung abscess

Options:-

- 1, Option ID :- 921,
- 2, Option ID :- 922,
- 3, Option ID :- 923,
- 4, Option ID :- 924,

Question ID:- 196

Given below are two statements, one is labelled as Assertion (A) and the other is labelled as Reason (R).

Assertion (A): Hahnemann recommended Homoeopathic medicine to be dissolved in water and give in proper small doses in Sixth edition of Organon.

Reason (R): According to the sixth edition of Organon, medicine dissolved in water is far more effective than globules placed dry on the tongue.

In light of the above statements, choose the *most appropriate* answer from the options given below:

1. Both (A) and (R) are correct and (R) is the correct explanation of (A).
2. Both (A) and (R) are correct and (R) is the correct explanation of (A).
3. (A) is correct but (R) is not correct.
4. (A) is not correct but (R) is correct.

Options:-

- 1, Option ID :- 781,
- 2, Option ID :- 782,
- 3, Option ID :- 783,
- 4, Option ID :- 784,

Question ID:- 159

Given below are two statements, one is labelled as Assertion (A) and the other is labelled as Reason (R).

Assertion (A): A sudden death can occur in patient with venous thrombosis of the deep vein of the legs.

Reason (R): Venous thrombosis of the deep veins of the legs may be complicated by immediate risk of developing pulmonary embolism.

In light of the above statements, choose the correct answer from the options given below:

1. Both (A) and (R) are correct and (R) is the correct explanation of (A).
2. Both (A) and (R) are correct and (R) is the correct explanation of (A).
3. (A) is correct but (R) is not correct.
4. (A) is not correct but (R) is correct.

Options:-

- 1, Option ID :- 633,
- 2, Option ID :- 634,
- 3, Option ID :- 635,
- 4, Option ID :- 636,

Question ID:- 150

Match **List I** with **List II**

List I	List II
A. IPC 84	I. Grievous hurt
B. IPC 197	II. Dying declaration
C. IPC 320	III. Issuing, signing false medical certificate
D. IEA 32	IV. Law of criminal responsibility

Choose the **correct** answer from the options given below:

1. A - III, B - I, C - IV, D - II
2. A - I, B - IV, C - II, D - III
3. A - II, B - I, C - III, D - IV
4. A - IV, B - III, C - I, D - II

Options:-

- 1, Option ID :- 597,
- 2, Option ID :- 598,
- 3, Option ID :- 599,
- 4, Option ID :- 600,

Question ID:- 173

Match **List I** with **List II**

List I	List II
A. Remedy for effects of repressed exanthemata simulating hydrocephalus	I. Ignatia
B. Irregular menses as the result of irritation of nervous system	II. Helleborous Niger
C. Second stage of inflammation with plastic exudation	III. Kali Mur
D. Hemorrhoids look like bunch of grapes or like "red cherries"	IV. Dioscorea Villosa

Choose the **correct** answer from the options given below:

1. A - III, B - I, C - II, D - IV
2. A - IV, B - I, C - II, D - III
3. A - II, B - I, C - III, D - IV
4. A - III, B - I, C - IV, D - II

Options:-

- 1, Option ID :- 689,
- 2, Option ID :- 690,
- 3, Option ID :- 691,
- 4, Option ID :- 692,

Question ID:- 225

Match **List I** with **List II**

List I	List II
A. Burr Cells.	I. Acute Myeloid Leukemia
B. Auer rods	II. Uremia
C. Tear drop cells	III. Haemolytic anamia
D. Schistocytes	IV. Mylephthisis

Choose the **correct** answer from the options given below:

1. A - II, B - I, C - IV, D - III
2. A - I, B - II, C - III, D - IV
3. A - IV, B - II, C - III, D - I
4. A - II, B - III, C - IV, D - I

Options:-

- **1, Option ID :- 897,**
- **2, Option ID :- 898,**
- **3, Option ID :- 899,**
- **4, Option ID :- 900,**

Question ID:- 217

Which of the following rubrics are present in Boger Boenninghausen's Characteristics and Repertory but absent in Kent Repertory.

- A. Reflexes diminished
- B. Sucking the thumb
- C. Hysteria
- D. Satyriasis
- E. Imbecility

Choose the **correct** answer from the options given below:

- 1. A, B and E only.
- 2. B, D and E only.
- 3. C, A and B only.
- 4. A, B and D only.

Options:-

- 1, Option ID :- 865,
- 2, Option ID :- 866,
- 3, Option ID :- 867,
- 4, Option ID :- 868,

Question ID:- 166

Consider the following statement regarding **Cohort study**

A. Cohort study is suitable to study rare diseases and several different aetiological factors can be examined in a single study.

B. In a Cohort study, we can determine incidence rates directly in those exposed and those not exposed.

Choose the correct answer from the option given below:

1. Both A and B are true
2. Both A and B are false
3. Only A is true
4. Only B is true

Options:-

- 1, Option ID :- 661,
- 2, Option ID :- 662,
- 3, Option ID :- 663,
- 4, Option ID :- 664,

Question ID:- 207

Arrange the following chapters of Boenninghausen's Therapeutic Book from first to last:

- A. Sexual organ
- B. Urine
- C. Micturition
- D. Leucorrhoea
- E. Menstruation

Choose the **correct** answer from the options given below:

- 1. B, C, A, E, D
- 2. B, C, A, D, E
- 3. A, E, D, B, C
- 4. A, E, B, C, D

Options:-

- **1, Option ID :- 825,**
- **2, Option ID :- 826,**
- **3, Option ID :- 827,**
- **4, Option ID :- 828,**

Question ID:- 170

Match **List I** with **List II**

List I	List II
Medicine	Antidote
A. Cicuta	I. Opium
B. Glonoine	II. Aconite
C. Psorinum	III. Coffea cruda
D. Stramonium	IV. Belladonna

Choose the **correct** answer from the options given below:

1. A - III, B - II, C - I, D - IV
2. A - I, B - II, C - III, D - IV
3. A - II, B - III, C - I, D - IV
4. A - IV, B - II, C - III, D - I

Options:-

- **1, Option ID :- 677,**
- **2, Option ID :- 678,**
- **3, Option ID :- 679,**
- **4, Option ID :- 680,**

Question ID:- 167

Match **List I** with **List II**

List I	List II
Disease	Occupation
A. Byssinosis	I. Sugarcane factory
B. Anthracosis	II. Dye stuff and Dyeing industry
C. Bagassosis	III. Textile industry
D. Bladder cancer	IV. Coal mines

Choose the **correct** answer from the options given below:

1. A - I, B - II, C - III, D - IV
2. A - I, B - IV, C - III, D - II
3. A - III, B - IV, C - I, D - II
4. A - III, B - II, C - I, D - IV

Options:-

- 1, Option ID :- 665,
- 2, Option ID :- 666,
- 3, Option ID :- 667,
- 4, Option ID :- 668,

Question ID:- 139

Given below are two statements:

Statement I: Anti-Mullerian Hormone is not secreted by Sertoli cells of Testes and Granulosa cells of ovary.

Statement II: Absence of AMH results in hermaphroditism in males.

In light of the above statements, choose the **correct** answer from the options given below:

1. Both Statement I and Statement II are correct.
2. Both Statement I and Statement II are incorrect.
3. Statement I is correct but Statement II is incorrect.
4. Statement I is incorrect but Statement II is correct.

Options:-

- 1, Option ID :- 553,
- 2, Option ID :- 554,
- 3, Option ID :- 555,
- 4, Option ID :- 556,

Question ID:- 141

Match **List I** with **List II**

List I	List II
A. 16 weeks	I. Fundal height at ensiform cartilage
B. 24 weeks	II. Fundal height correspondence to junction of upper and middle third from umbilicus and xiphoid process.
C. 32 weeks	III. Midway between and symphysis pubis and umbilicus
D. 36 weeks	IV. Just above umbilicus

Choose the **correct** answer from the options given below:

1. A - III, B - IV, C - II, D - I
2. A - IV, B - III, C - II, D - I
3. A - III, B - I, C - IV, D - II
4. A - II, B - III, C - I, D - IV

Options:-

- **1, Option ID :- 561,**
- **2, Option ID :- 562,**
- **3, Option ID :- 563,**
- **4, Option ID :- 564,**

Question ID:- 238

Curschmann's spirals are seen in the sputum of patient with

1. Tuberculous cavity in lung
2. Bronchial asthma
3. Lung abscess
4. Bronchiectasis

Options:-

- **1, Option ID :- 949,**

- **2, Option ID :- 950,**
- **3, Option ID :- 951,**
- **4, Option ID :- 952,**

Question ID:- 199

Match **List I** with **List II**

List I	List II
Symptoms	Dominating Miasm
A. Paper thin nails	I. Syphilis
B. Boils with suppuration and pains	II. Psora
C. Fear of dog, strangers etc. in children	III. Syphilis
D. Hairfall in circular spots	IV. Combination of Psora and syphilitic miasm

Choose the **correct** answer from the options given below:

1. A - III, B - IV, C - I, D - II
2. A - IV, B - I, C - III, D - II
3. A - II, B - I, C - III, D - IV
4. A - III, B - IV, C - II, D - I

Options:-

- **1, Option ID :- 793,**
- **2, Option ID :- 794,**
- **3, Option ID :- 795,**
- **4, Option ID :- 796,**

Question ID:- 190

Given below are two statements:

Statement I: Law of similar is the fundamental law in the palliation of incurable states.

Statement II: Kent's ninth observation states that prolonged aggravation and the final decline of patient demands palliative treatment.

In light of the above statements, choose the **correct** answer from the options given below:

1. Both Statement I and Statement II are correct.
2. Both Statement I and Statement II are incorrect.
3. Statement I is correct but Statement II is incorrect.
4. Statement I is incorrect but Statement II is correct.

Options:-

- 1, Option ID :- 757,
- 2, Option ID :- 758,
- 3, Option ID :- 759,
- 4, Option ID :- 760,

Question ID:- 176

Obstinate constipation for years; rectum seems tied up with strictures; when enema was used the agony of passage was like labor is the symptom of:

1. Sulphur
2. Syphillinum
3. Nux vomica
4. Nitric acid

Options:-

- 1, Option ID :- 701,
- 2, Option ID :- 702,

- **3, Option ID :- 703,**
 - **4, Option ID :- 704,**
-

Question ID:- 181

The remedy corresponding to the symptoms of Air Sickness in aviators is:

1. Aconite
2. Belladonna
3. Calcarea Carb
4. Cocculus Indica

Options:-

- **1, Option ID :- 721,**
 - **2, Option ID :- 722,**
 - **3, Option ID :- 723,**
 - **4, Option ID :- 724,**
-

Question ID:- 151

Given below are two statements, one is labelled as Assertion (A) and the other is labelled as Reason (R).

Assertion (A): In partial hanging, constrictive force is less but congestive changes are more marked

Reason (R): In partial hanging, carotid arteries and jugular veins are completely occluded but vertebral arteries continue to supply blood to head

In light of the above statements, choose the correct answer from the options given below:

1. Both (A) and (R) are correct and (R) is the correct explanation of (A).
2. Both (A) and (R) are correct and (R) is the correct explanation of (A).
3. (A) is correct but (R) is not correct.
4. (A) is not correct but (R) is correct.

Options:-

- 1, Option ID :- 601,
- 2, Option ID :- 602,
- 3, Option ID :- 603,
- 4, Option ID :- 604,

Question ID:- 153

Single largest cause of blindness in India is:

1. Glaucoma
2. Refractive errors
3. Cataract
4. Trachoma

Options:-

- 1, Option ID :- 609,

- **2, Option ID :- 610,**
- **3, Option ID :- 611,**
- **4, Option ID :- 612,**

Question ID:- 232

The common cause of communicating hydrocephalus is:

1. Aqueductal stenosis
2. Choroidal plexus papilloma
3. Sub-arachnoid haemorrhage
4. Meningitis

Options:-

- **1, Option ID :- 925,**
- **2, Option ID :- 926,**
- **3, Option ID :- 927,**
- **4, Option ID :- 928,**

Question ID:- 143

Menorrhagia can be a presenting complaint in all conditions **except** one of the following. Choose the correct one.

1. Asherman syndrome
2. Polycystic Ovarian Syndrome
3. Adenomyosis
4. Endometriosis

Options:-

- **1, Option ID :- 569,**
- **2, Option ID :- 570,**

- **3, Option ID :- 571,**
 - **4, Option ID :- 572,**
-

Question ID:- 174

"Diabetes especially in children" is a symptom of:

1. Chamomilla
2. Syzygium Jabolatum
3. Acetic Acid
4. Crataegus

Options:-

- **1, Option ID :- 693,**
 - **2, Option ID :- 694,**
 - **3, Option ID :- 695,**
 - **4, Option ID :- 696,**
-

Question ID:- 218

Following drugs are derived from Loganiaceae family EXCEPT

1. Gelsemium
2. Spigelia
3. Senna
4. Ignatia amara

Options:-

- **1, Option ID :- 869,**
- **2, Option ID :- 870,**
- **3, Option ID :- 871,**

Question ID:- 152

Following active principles are found in *Atropa belladonna* EXCEPT:

1. Hyoscyamine
2. Emetine
3. Atropin
4. Scopolamine

Options:-

- 1, Option ID :- 605,
- 2, Option ID :- 606,
- 3, Option ID :- 607,
- 4, Option ID :- 608,

Question ID:- 228

Which of the following describes the value for Ranson's criteria for severity assessment of Acute Pancreatitis.

- A. Age of > 55 yrs
- B. Blood Glucose of > 200 mg/dl
- C. LDH > 350 (IU/L)
- D. Serum creatinine > 3.5 mg/dl
- E. PO_2/FiO_2 > 201-300

Choose the **correct** answer from the options given below:

1. A, B and C only.
2. B, C and E only.
3. C and E only.
4. D and E only.

Options:-

- **1, Option ID :- 909,**
- **2, Option ID :- 910,**
- **3, Option ID :- 911,**
- **4, Option ID :- 912,**

Question ID:- 154

A 55 year old male smoker presented with a slow growing painless swelling below the right ear over the angle of jaw. On examination, the swelling was found to be soft and cystic, non-tender, smooth and well defined. The most probable diagnosis of the case is:

1. Warthin's tumour
2. Tubercular lymphadenopathy
3. Pleomorphic adenoma
4. Adenocarcinoma of Parotid gland

Options:-

- **1, Option ID :- 613,**
- **2, Option ID :- 614,**
- **3, Option ID :- 615,**
- **4, Option ID :- 616,**

Question ID:- 211

Which of the following Repertory is NOT published by Guernsey

1. Desires and Aversion
2. Repertory of Sciatica
3. Repertory of Mastitis
4. Repertory of Haemorrhoids

Options:-

- 1, Option ID :- 841,
- 2, Option ID :- 842,
- 3, Option ID :- 843,
- 4, Option ID :- 844,

Question ID:- 208

What would be the correct arrangement for the symptom "muscle refuse to obey the will when attention is turned away" in Kent Repertory:

1. Extremities- Refuses-muscles-obey the will when attention is turned away
2. Generalities- Will-muscles refuses to obey the will when attention is turned away
3. Mind-Will-muscles refuses to obey the will when attention is turned away
4. Mind-Refuses-muscles- obey the will when attention is turned away

Options:-

- 1, Option ID :- 829,
- 2, Option ID :- 830,
- 3, Option ID :- 831,
- 4, Option ID :- 832,

Question ID:- 145

Match **List I** with **List II**

List I	List II
A. Placenta membranacea	I. Cord is attached to margin of placenta
B. Battledore placenta	II. Cord is attached to membrane
C. Valerulous placenta	III. Placenta is directly anchored to myometrium
D. Placenta accreta	IV. Placenta is unduly thick and large

Choose the **correct** answer from the options given below:

1. A - I, B - III, C - II, D - IV
2. A - IV, B - II, C - I, D - III
3. A - IV, B - I, C - II, D - III
4. A - I, B - II, C - III, D - IV

Options:-

- 1, Option ID :- 577,
- 2, Option ID :- 578,
- 3, Option ID :- 579,
- 4, Option ID :- 580,

Question ID:- 239

Minimal change glomerular Nephritis has following features

- A. Most common cause of nephrotic syndrome in children
- B. Nephrotic range of proteinuria
- C. Microscopic haematuria is inevitable
- D. Hypertension is usual
- E. Electron microscopy reveals retraction of epithelial foot process along with obliteration of slit pores

Choose the **correct** answer from the options given below:

- 1. A, C and E only.
- 2. B, C and E only.
- 3. A, B and E only.
- 4. A, B and D only.

Options:-

- 1, Option ID :- 953,
- 2, Option ID :- 954,
- 3, Option ID :- 955,
- 4, Option ID :- 956,

Question ID:- 126

Match **List I** with **List II**

List I	List II
A. Anterior Mediastinum	I. Trachea
B. Middle Mediastinum	II. Heart
C. Posterior Mediastinum	III. Azygos Vein
D. Superior Mediastinum	IV. Sternopericardial Ligament

Choose the **correct** answer from the options given below:

1. A - IV, B - II, C - III, D - I
2. A - IV, B - III, C - I, D - II
3. A - I, B - III, C - II, D - IV
4. A - III, B - IV, C - II, D - I

Options:-

- **1, Option ID :- 501,**
- **2, Option ID :- 502,**
- **3, Option ID :- 503,**
- **4, Option ID :- 504,**

Question ID:- 197

Given below are two statements, one is labelled as Assertion (A) and the other is labelled as Reason (R).

Assertion (A): During drug proving every medicinal substance must be employed quite alone and perfectly pure without taking anything else of a medicinal nature the same day, nor during all the time we wish to observe the effect of the medicine.

Reason (R): All the suffering, accidents and changes of the health of the experimenter during the action of a medicine are solely derived from the medicine being proved.

In light of the above statements, choose the *most appropriate* answer from the options given below:

1. Both (A) and (R) are correct and (R) is the correct explanation of (A).
2. Both (A) and (R) are correct and (R) is the correct explanation of (A).
3. (A) is correct but (R) is not correct.
4. (A) is not correct but (R) is correct.

Options:-

- 1, Option ID :- 785,
- 2, Option ID :- 786,
- 3, Option ID :- 787,
- 4, Option ID :- 788,

Question ID:- 224

Given below are two statements, one is labelled as Assertion (A) and the other is labelled as Reason (R).

Assertion (A): Myasthenia Gravis is an autoimmune disorder.

Reason (R): It is due to autoantibodies formed against the voltage gated calcium channels on pre-synaptic motor nerve terminal.

In light of the above statements, choose the correct answer from the options given below:

1. Both (A) and (R) are correct and (R) is the correct explanation of (A).
2. Both (A) and (R) are correct and (R) is the correct explanation of (A).
3. (A) is correct but (R) is not correct.
4. (A) is not correct but (R) is correct.

Options:-

- 1, Option ID :- 893,
- 2, Option ID :- 894,
- 3, Option ID :- 895,
- 4, Option ID :- 896,

Question ID:- 240

Which of the following is NOT a symptom of Benzoic Acid

1. Highly colored urine
2. Ganglion of wrist
3. Offensive urine of old men
4. Cough worse on lying on left side

Options:-

- 1, Option ID :- 957,
- 2, Option ID :- 958,
- 3, Option ID :- 959,

■ **4, Option ID :- 960,**

Question ID:- 169

Standard Deviation is a type of:

1. Measure of Dispersion
2. Measure of Central Tendency
3. Correlation
4. Test of Significance

Options:-

-

Question ID:- 233

Commonest site of Hypertensive Bleeding is in

1. Pons
2. Medulla
3. Cerebellum
4. Putamen

Options:-

- **1, Option ID :- 929,**
- **2, Option ID :- 930,**
- **3, Option ID :- 931,**
- **4, Option ID :- 932,**
-

Question ID:- 237

The following are the complications of Acute Pancreatitis EXCEPT

1. Hyperglycaemia
2. Hypertriglyceridemia
3. Hypercalcaemia
4. Encephalopathy

Options:-

- 1, Option ID :- 945,
- 2, Option ID :- 946,
- 3, Option ID :- 947,
- 4, Option ID :- 948,

Question ID:- 193

Arrange the essay and works of C.F.S Hahnemann in the order of their year of publication:

- A. Dissertation on the *Helleborism* of the Ancients
- B. Friend of Health
- C. Organon of the Rational system of Medicine
- D. Instructions for surgeon on venereal disease
- E. Cure and preventive of Scarlet fever

Choose the **correct** answer from the options given below:

1. A, B, C, D and E only.
2. A, D, B, E, C
3. B, D, A, E, C
4. D, B, E, C, A

Options:-

- 1, Option ID :- 769,
- 2, Option ID :- 770,
- 3, Option ID :- 771,
- 4, Option ID :- 772,

Question ID:- 226

Which of the following Parasite completes its entire life cycle in man.

1. Ascaris lumbricoides
2. Strongyloides
3. Hookworm
4. Trichuris

Options:-

- 1, Option ID :- 901,
- 2, Option ID :- 902,
- 3, Option ID :- 903,
- 4, Option ID :- 904,

Question ID:- 192

What is to be done by a physician when no improvement follows after giving the remedy having alternating action?

1. Wait, watch and give placebo
2. Give same medicine in higher potency
3. Give equally small dose of same medicine
4. Change the remedy

Options:-

- 1, Option ID :- 765,
- 2, Option ID :- 766,

- **3, Option ID :- 767,**
- **4, Option ID :- 768,**

Question ID:- 160

Given below are two statements, one is labelled as Assertion (A) and the other is labelled as Reason (R).

Assertion (A): A primary metabolic acidosis results in an increase in hydrogen ions and a consequent increase in bicarbonate ions.

Reason (R): In compensatory respiratory alkalosis, the patient hyperventilates and reduces the arterial carbon dioxide levels, thus moving pH back to normal.

In light of the above statements, choose the **correct** answer from the options given below:

1. Both (A) and (R) are correct and (R) is the correct explanation of (A).
2. Both (A) and (R) are correct and (R) is the correct explanation of (A).
3. (A) is correct but (R) is not correct.
4. (A) is not correct but (R) is correct.

Options:-

- **1, Option ID :- 637,**
- **2, Option ID :- 638,**
- **3, Option ID :- 639,**
- **4, Option ID :- 640,**

Question ID:- 123

Which one of the following nerve innervates the mediastinal pleura?

1. Vagus Nerve
2. Splanchnic Nerve
3. Phrenic Nerve
4. Intercostal Nerve

Options:-

- 1, Option ID :- 489,
- 2, Option ID :- 490,

Question ID:- 149

First external sign of putrefaction in a body lying in air is seen over the region of

1. Stomach
2. Liver
3. Spleen
4. Caecum

Options:-

- 1, Option ID :- 593,
- 2, Option ID :- 594,
- 3, Option ID :- 595,
- 4, Option ID :- 596,

Question ID:- 195

Which disease amongst the following is due to fixed miasm?

1. Typhus
2. Whooping cough
3. Gaol fever
4. Typhoid

Options:-

- 1, Option ID :- 777,
- 2, Option ID :- 778,
- 3, Option ID :- 779,
- 4, Option ID :- 780,

Question ID:- 212

The only medicine given in Kent's Repertory for Yellow Dandruff is:

1. Kali Chlor
2. Mezereum
3. Kali Sulph
4. Thuja

Options:-

- 1, Option ID :- 845,
- 2, Option ID :- 846,
- 3, Option ID :- 847,
- 4, Option ID :- 848,

Question ID:- 168

The time interval between inoculation of infective larvae and the first appearance of detectable Microfilariae (Mf) is known as?

1. Pre-patent period
2. Latent period
3. Window period
4. Withdrawal period

Options:-

- 1, Option ID :- 669,
- 2, Option ID :- 670,
- 3, Option ID :- 671,
- 4, Option ID :- 672,

Question ID:- 234

Microalbuminuria is defined as:

1. Urinary albumin excretion of more than 300mg/24 hr.
2. Urinary albumin excretion of more than 30mg/24 hr & less than or equal to 300 mg/24hr.
3. Urinary albumin excretion of more than 20mg/24 hr.
4. Urinary albumin excretion of more than 20mg/24 hr. and less than 200mg/24hr

Options:-

- 1, Option ID :- 933,
- 2, Option ID :- 934,
- 3, Option ID :- 935,
- 4, Option ID :- 936,

Question ID:- 213

Given below are two statements:

Statement I: The all drugs mentioned in the Kent's Repertory, under chapter extremities, rubric "Heaviness, lower limb exertion after" are mentioned in the first grade only.

Statement II: The all drugs mentioned in Boenninghausen's Therapeutic Book, under the chapter Lower Extremities, rubric "Patella" are mentioned in the First Grade only.

In light of the above statements, choose the **most appropriate** answer from the options given below:

1. Both Statement I and Statement II are correct.
2. Both Statement I and Statement II are incorrect.
3. Statement I is correct but Statement II is incorrect.
4. Statement I is incorrect but Statement II is correct.

Options:-

- **1, Option ID :- 849,**
 - **2, Option ID :- 850,**

In light of the above statements, choose the **correct** answer from the options given below:

1. Both Statement I and Statement II are correct.
2. Both Statement I and Statement II are incorrect.
3. Statement I is correct but Statement II is incorrect.
4. Statement I is incorrect but Statement II is correct.

Options:-

- 1, Option ID :- 713,
- 2, Option ID :- 714,
- 3, Option ID :- 715,
- 4, Option ID :- 716,

Question ID:- 202

The only remedy mentioned in 'Aggravation in Moonlight' in Therapeutic Pocket Book is:

1. Antim crud
2. Belladonna
3. Nux vomica
4. Stramonium

Options:-

- **1, Option ID :- 805,**
- **2, Option ID :- 806,**
- **3, Option ID :- 807,**
- **4, Option ID :- 808,**

Question ID:- 138

The immunoglobulin class responsible for sensitization of man for local and systemic anaphylactic reaction is:

1. IgA
2. IgE
3. IgG
4. IgM

Options:-

- **1, Option ID :- 549,**
- **2, Option ID :- 550,**
- **3, Option ID :- 551,**
- **4, Option ID :- 552,**

Question ID:- 198

Match **List I** with **List II**

List I	List II
A. Furious Mania	I. A Silence not wholly inattentive
B. Doleful, querulous lamentation	II. Calm intrepidity
C. Senseless chattering	III. Total inattention
D. Disgusting and abominable conduct	IV. Mute display of commiseration in looks and gestures

Choose the **correct** answer from the options given below:

1. A - II, B - IV, C - III, D - I
2. A - II, B - IV, C - I, D - III
3. A - II, B - III, C - IV, D - I
4. A - II, B - III, C - I, D - IV

Options:-

- 1, Option ID :- 789,
- 2, Option ID :- 790,
- 3, Option ID :- 791,
- 4, Option ID :- 792,

Question ID:- 157

Regarding cholesteatoma

- A. It contains desquamated debris from its keratinizing squamous epithelial lining.
- B. It causes enzymatic bone destruction.
- C. Congenital cholesteatoma arise from embryonic ciliated columnar epithelium entrapped in the middle ear cleft.
- D. A persistent malodorous ear discharge is present
- E. A fleshy red polyp may be seen filling the meatus

Choose the **correct** answer from the options given below:

- 1. A, B, C and D only.
- 2. A, B, D and E only.
- 3. B, C, D and E only.
- 4. A, C, D and E only.

Options:-

- 1, Option ID :- 625,
- 2, Option ID :- 626,
- 3, Option ID :- 627,
- 4, Option ID :- 628,

Question ID:- 227

Given below are two statements, one is labelled as Assertion (A) and the other is labelled as Reason (R).

Assertion (A): Chronic use of NSAIDS increases the risk of gastric mucosal ulcer.

Reason (R): NSAIDS inhibits the enzyme cyclooxygenase-1 (COX-1)

In light of the above statements, choose the correct answer from the options given below:

1. Both (A) and (R) are correct and (R) is the correct explanation of (A).
2. Both (A) and (R) are correct and (R) is the correct explanation of (A).
3. (A) is correct but (R) is not correct.
4. (A) is not correct but (R) is correct.

Options:-

- 1, Option ID :- 905,
- 2, Option ID :- 906,
- 3, Option ID :- 907,
- 4, Option ID :- 908,

Question ID:- 210

The rubric 'Aversion for dry food' is found in which chapter of BBCR.

1. Appetite
2. Taste
3. Stomach and Epigastrium
4. Conditions in General

Options:-

- 1, Option ID :- 837,
- 2, Option ID :- 838,
- 3, Option ID :- 839,

■ **4, Option ID :- 840,**

Question ID:- 135

Match **List I** with **List II**

List I	List II
RENAL DISEASE	FEATURE
A. Adult polycystic kidney disease	I. Flea bitten kidney
B. Anti-glomerular basement membrane disease	II. Small contracted kidney
C. Acute post streptococcal glomerulonephritis	III. Autosomal dominant
D. Chronic glomerulonephritis	IV. Goodpasture's disease

Choose the **correct** answer from the options given below:

1. A - I, B - IV, C - III, D - II
2. A - I, B - III, C - II, D - IV
3. A - IV, B - III, C - II, D - I
4. A - III, B - IV, C - I, D - II

Options:-

- **1, Option ID :- 537,**
- **2, Option ID :- 538,**
- **3, Option ID :- 539,**
- **4, Option ID :- 540,**

Question ID:- 140

Tissue marker CA-125 is raised in:

- A. Endometriosis
- B. Cervicitis
- C. Epithelial Ovarian Tumor
- D. Abdominal TB
- E. Cervical Erosion

Choose the **correct** answer from the options given below:

- 1. A, B and E only.
- 2. A and C only.
- 3. A, C and D only.
- 4. A, B, C and E only.

Options:-

- 1, Option ID :- 557,
- 2, Option ID :- 558,
- 3, Option ID :- 559,
- 4, Option ID :- 560,

Question ID:- 130

Basic stimuli that are important in causing secretion of Pancreatic juice in digestive phase:

- A. Acetylcholine
- B. Gastrin
- C. Secretin
- D. Cholecystokinin (CKK)

Choose the correct answer from the options given below:

- 1. A, C and D only.
- 2. B and C only.
- 3. A and D only.
- 4. B, C and D only.

Options:-

- **1, Option ID :- 517,**
- **2, Option ID :- 518,**
- **3, Option ID :- 519,**
- **4, Option ID :- 520,**

Question ID:- 175

A case presented with colic with convulsions, jerking, tearing in coccyx, especially during menses; with violent strange desire and sensation of internal chill needs:

- 1. Cicutavirosa
- 2. Chamomilla
- 3. Colocynth
- 4. Aconite

Options:-

- **1, Option ID :- 697,**

- 2, Option ID :- 698,
- 3, Option ID :- 699,
- 4, Option ID :- 700,

Question ID:- 124

Which statement is **incorrect** about Seminal vesicles?

1. Located between the urinary bladder and the rectum.
2. Reservoirs of spermatozoa
3. The secretion of seminal vesicle contains fructose
4. After puberty the vesicles contribute upto 85% of the seminal fluid.

Options: -

- 1, Option ID :- 493,
- 2, Option ID :- 494,
- 3, Option ID :- 495,
- 4, Option ID :- 496,

Question ID:- 147

Which one of the following hormones tends to decrease in Polycystic Ovarian Syndrome?

1. Estradiol
2. Serum hormone binding globulin
3. Dehydroepiandrosterone
4. Insulin

Options:-

- 1, Option ID :- 585,
- 2, Option ID :- 586,

- **3, Option ID :- 587,**
 - **4, Option ID :- 588,**
-

Question ID:- 222

Rectified spirit 60° O.P has an ethyl alcohol concentration of

1. 91.0
2. 91.4
3. 94.1
4. 91.5

Options:-

- **1, Option ID :- 885,**
 - **2, Option ID :- 886,**
 - **3, Option ID :- 887,**
 - **4, Option ID :- 888,**
-

Question ID:- 158

A 14 years old boy presented with burning, lacrimation, photophobia and ropy discharge from eyes he gives history of similar complaint during previous summer season. On examination of eyes, the palpebral conjunctiva shows flat topped papillae arranged in a cobble stone fashion along with conjunctival hyperemia. The probable diagnosis is:

1. Acute haemorrhagic conjunctivitis
2. Viral conjunctivitis
3. Toxic conjunctivitis
4. Vernal keratoconjunctivitis

Options:-

- **1, Option ID :- 629,**

- **2, Option ID :- 630,**
- **3, Option ID :- 631,**
- **4, Option ID :- 632,**

Question ID:- 219

Following parameters are used to assess the quality of mother tincture
EXCEPT

1. Total solid
2. UV Absorbance
3. Weight per milliliter
4. Water Content

Options:-

- **1, Option ID :- 873,**
- **2, Option ID :- 874,**
- **3, Option ID :- 875,**
- **4, Option ID :- 876,**

Question ID:- 121

Which one of the following lymphoid tissue has both afferent and efferent lymphatics?

1. Thymus
2. Spleen
3. Tonsil
4. Lymph Node

Options:-

- **1, Option ID :- 481,**
- **2, Option ID :- 482,**

- **3, Option ID :- 483,**
 - **4, Option ID :- 484,**
-

Question ID:- 183

Given below are two statements:

Statement I: Like its botanical relatives, Gelsemium is a great paralysing agent.

Statement II: Gelsemium is indicated for neurotic symptoms in cigar makers.

In light of the above statements, choose the **correct** answer from the options given below:

1. Both Statement I and Statement II are correct.
2. Both Statement I and Statement II are incorrect.
3. Statement I is correct but Statement II is incorrect.
4. Statement I is incorrect but Statement II is correct.

Options:-

- **1, Option ID :- 729,**
 - **2, Option ID :- 730,**
 - **3, Option ID :- 731,**
 - **4, Option ID :- 732,**
-

Question ID:- 221

Arrange the following Pharmacopeia according to their chronological order of publication

A. German Homoeopathic Pharmacopeia compiled by Wilmar Schwabe

B. Pharmaceutics Manual by Bhattacharya

C. British Homoeopathic Pharmacopeia

D. Pharmacopeia of American Institute of Homoeopathy

Choose the **correct** answer from the options given below:

1. A, B, C, D

2. C, A, D, B

3. B, A, D, C

4. D, A, B, C

Options:-

■ **1, Option ID :- 881,**

■ **2, Option ID :- 882,**

■ **3, Option ID :- 883,**

■ **4, Option ID :- 884,**

Question ID:- 172

Paroxysmal suffocative cough, coming on about midnight with crying and dyspnoea; profuse sweat accompanies many affections is the feature of:

1. Apis mellifica

2. Psorinum

3. Sambucus nigra

4. Ipecacuanha

Options:-

■ **1, Option ID :- 685,**

- **2, Option ID :- 686,**
- **3, Option ID :- 687,**
- **4, Option ID :- 688,**

Question ID:- 163

Which is NOT a feature of Ranula

1. Occur on the floor of mouth
2. Plunging ranula extends to neck
3. Pushes the tongue up
4. Hard in consistency

Options:-

- **1, Option ID :- 649,**
- **2, Option ID :- 650,**
- **3, Option ID :- 651,**
- **4, Option ID :- 652,**

Question ID:- 205

Which of the following is the first rubric given in Therapeutic Pocket Book?

1. Absence of Mind
2. Alternating Mood
3. Mind in General
4. Disposition general affected

Options:-

- **1, Option ID :- 817,**
- **2, Option ID :- 818,**
- **3, Option ID :- 819,**

■ **4, Option ID :- 820,**

Question ID:- 180

Bad effect of mental excitement, fright, fear, mechanical injuries and their later consequences; from having hair cut is in:

1. Natrum Carb
2. Nux Vomica
3. Millefolium
4. Glonoine

Options:-

- **1, Option ID :- 717,**
 - **2, Option ID :- 718,**
 - **3, Option ID :- 719,**
 - **4, Option ID :- 720,**
-

Question ID:- 171

Diabetes with Impotency; Hoarseness worse after talking; better from wine; is the characteristic feature of:

1. Zincum metallicum
2. Coca
3. Selenium
4. Carbo vegetabilis

Options:-

- **1, Option ID :- 681,**
- **2, Option ID :- 682,**
- **3, Option ID :- 683,**
- **4, Option ID :- 684,**

Question ID:- 182Match **List I** with **List II**

List I	List II
A. Juice of whole plant at the commencement of flowering	I. Cinchona
B. Juice from fresh root before flowering	II. Belladonna
C. Charcoal of any kind of wood	III. Bryonia
D. Tincture from bark	IV. Carbo veg

Choose the **correct** answer from the options given below:

1. A - I, B - II, C - III, D - IV
2. A - III, B - I, C - II, D - IV
3. A - II, B - III, C - IV, D - I
4. A - IV, B - II, C - III, D - I

Options:-

- 1, Option ID :- 725,
- 2, Option ID :- 726,
- 3, Option ID :- 727,
- 4, Option ID :- 728,

Question ID:- 136

What is correct sequence of event in peak of cardiac markers in Acute Myocardial Infarct from the following:

- A. Myoglobin
- B. CK-MB
- C. LDH
- D. Cardiac Troponin

Choose the **correct** answer from the options given below:

- 1. A, D, C, B
- 2. A, D, B, C
- 3. D, A, B, C
- 4. D, A, C, B

Options:-

- **1, Option ID :- 541,**
- **2, Option ID :- 542,**
- **3, Option ID :- 543,**
- **4, Option ID :- 544,**
