

AIAPGET_6th July 2024

Application No	
Candidate Name	
Roll No.	
Test Date	06/07/2024
Test Time	9:00 AM - 11:00 AM
Subject	Homeopathy

Section : Homeopathy

Q.1 Who amongst the following was the first English translator of fourth edition of Organon of Medicine?

- | | |
|--------------------|-------------------------|
| (1) R.E. Dudgeon | (2) C.E. Wheeler |
| (3) C. Wesselhoeft | (4) Charles H. Devrient |

Options

- 1. 1
- 2. 2
- 3. 3
- 4. 4

Question Type : **MCQ**

Question ID : **13332728**

Option 1 ID : **133327109**

Option 2 ID : **133327110**

Option 3 ID : **133327111**

Option 4 ID : **133327112**

Status : _____

Chosen Option :

Q.2 Given below are two statements :

Statement I : The wound will have bevelled margin, if the blade of weapon enters obliquely.

Statement II : Bevelling can be produced by sharp weapons only.

In the light of the above statements, choose the correct answer from the options given below :

- (1) Both Statement I and Statement II are true
- (2) Both Statement I and Statement II are false
- (3) Statement I is true but Statement II is false
- (4) Statement I is false but Statement II is true

Options 1.1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ
Question ID : 13332766
Option 1 ID : 133327261
Option 2 ID : 133327262
Option 3 ID : 133327263
Option 4 ID : 133327264
Status : _____
Chosen Option : --

Q.3

In a prescription, directions to the patient are given under :

- | | |
|--------------------|-----------------|
| (1) Superscription | (2) Inscription |
| (3) Subscription | (4) Signature |

Options 1.1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ
Question ID : 13332711
Option 1 ID : 13332741
Option 2 ID : 13332742
Option 3 ID : 13332743
Option 4 ID : 13332744
Status : _____
Chosen Option : --

Q.4 "Norplant" a subdermal implant consist of 6 silastic capsules containing :

- | | |
|--------------------|------------------|
| (1) Progestogen | (2) Oestrogen |
| (3) Levonorgestrel | (4) Mifepristone |

Options 1.1

- 2. 2
- 3. 3
- 4. 4

Question Type : **MCQ**

Question ID : **133327104**

Option 1 ID : **133327413**

Option 2 ID : **133327414**

Option 3 ID : **133327415**

Option 4 ID : **133327416**

Status : _____

Chosen Option :

Q.5 Paracentesis thoracis is usually done in which of the following intercostal space in midaxillary line?

- | | |
|---------------------|---------------------|
| (1) 7 th | (2) 8 th |
| (3) 9 th | (4) 6 th |

Options 1.1

- 2. 2
- 3. 3
- 4. 4

Question Type : **MCQ**

Question ID : **13332773**

Option 1 ID : **133327289**

Option 2 ID : **133327290**

Option 3 ID : **133327291**

Option 4 ID : **133327292**

Status : _____

Chosen Option :

Q.6 An old man of rheumatic gout diathesis complaining of arthritic pains in joints; pains are drawing, tearing, pressing, light or superficial during warm weather; affect the bones and deeper tissues, when air is cold; pains go from left to right; bad manners, make him almost beside himself; his suffering seem intolerable. The most suitable remedy is :

- | | |
|------------------------|-------------------------|
| (1) Rhus toxicodendron | (2) Staphysagria |
| (3) Bryonia alba | (4) Colchicum Autumnale |

Options 1.1

2. 2
3. 3
4. 4

Question Type : MCQ

Question ID : **13332737**

Option 1 ID : **133327145**

Option 2 ID : **133327146**

Option 3 ID : **133327147**

Option 4 ID : **133327148**

Status : _____

Chosen Option :

Q.7 Match List I with List II :

List I	List II
(A) < 10 years	(I) Multiple Myeloma
(B) Teenage	(II) Eosinophilic granuloma
(C) Reproductive age	(III) Ewing's Sarcoma
(D) > 60 years	(IV) Breast cancer

Choose the correct answer from the options given below :

- (1) (A)-(II), (B)-(III), (C)-(I), (D)-(IV)
(2) (A)-(III), (B)-(IV), (C)-(II), (D)-(I)
(3) (A)-(IV), (B)-(II), (C)-(III), (D)-(I)
(4) (A)-(II), (B)-(III), (C)-(IV), (D)-(I)

Options 1.1

2. 2
3. 3
4. 4

Question Type : MCQ

Question ID : **13332720**

Option 1 ID : **13332777**

Option 2 ID : **13332778**

Option 3 ID : **13332779**

Option 4 ID : **13332780**

Status : _____

Chosen Option :

Q.8 "Obstinate constipation for years; rectum seems tied up with strictures; when enema was used, the agony of passage was like labor" is the symptom of :

- | | |
|----------------|-----------------|
| (1) Sulphur | (2) Syphilinum |
| (3) Nux Vomica | (4) Nitric Acid |

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : **MCQ**

Question ID : **13332754**

Option 1 ID : **133327213**

Option 2 ID : **133327214**

Option 3 ID : **133327215**

Option 4 ID : **133327216**

Status : _____

Chosen option

Q.9 Match List I with List II :

List I	List II
DRUGS	SEASON FOR COLLECTION
(A) Chamomilla	(I) Second year growth
(B) Euphrasia	(II) Beginning of flowering
(C) Chelidonium	(III) When in flower
(D) Belladonna	(IV) Before flowering

Choose the correct answer from the options given below :

- (1) (A)-(I), (B)-(III), (C)-(IV), (D)-(II)
- (2) (A)-(II), (B)-(I), (C)-(III), (D)-(IV)
- (3) (A)-(III), (B)-(I), (C)-(IV), (D)-(II)
- (4) (A)-(IV), (B)-(I), (C)-(II), (D)-(III)

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : **MCQ**

Question ID : **13332717**

Option 1 ID : **13332765**

Option 2 ID : **13332766**

Option 3 ID : **13332767**

Option 4 ID : **13332768**

Status : _____

Chosen Option :

Q.10 One sided disease are :

- (A) Disease which affect one side of the body
- (B) Disease which belong to class of Acute individual disease
- (C) Disease with few perceptible symptoms
- (D) Less amenable to cure

Choose the most appropriate answer from the options given below :

- (1) A and C only
- (2) B and C only
- (3) C and D only
- (4) A and D only

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : **MCQ**

Question ID : **13332735**

Option 1 ID : **133327137**

Option 2 ID : **133327138**

Option 3 ID : **133327139**

Option 4 ID : **133327140**

Status : _____

Chosen Option :

Homoeopaedia

Q.11 Which of the following rubrics are given in generalities section of Kents Repertory?

- (A) Bed sores
- (B) Thrombosis
- (C) Apoplexy
- (D) Constipation amel
- (E) Diarrhoea in aged people

Choose the correct answer from the options given below :

- (1) A, B, C only
- (2) B, C, D only
- (3) C, D, E only
- (4) D, E, A only

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : **MCQ**

Question ID : **13332743**

Option 1 ID : **133327169**

Option 2 ID : **133327170**

Option 3 ID : **133327171**

Option 4 ID : **133327172**

Status : _____

Chosen Option :

Q.12 Which of the following statements are true for multiple endocrine neoplasia (MEN) syndromes?

- (A) Each type of MEN syndrome is inherited as autosomal recessive.
- (B) MEN type I is characterized by triad of tumors involving parathyroids, pancreatic islets and anterior pituitary
- (C) Majority of patients with MEN type I have hypercalcemia
- (D) Medullary thyroid carcinoma is the most common feature of MEN type 2

Choose the correct answer from the options given below :

- (1) (A), (B) and (C) only
- (2) (A), (C) and (D) only
- (3) (B), (C) and (D) only
- (4) (A), (B) and (D) only

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : **MCQ**

Question ID : **13332790**

Option 1 ID : **133327357**

Option 2 ID : **133327358**

Option 3 ID : **133327359**

Option 4 ID : **133327360**

Status : _____

Chosen Option :

Q.13 In Boenninghausen's Therapeutic Pocket book, rubric 'Death Apparent' is given in which chapter?

- | | |
|----------------|-----------------|
| (1) Sensations | (2) Aggravation |
| (3) Chest | (4) Fever |

Options 1. 1

2. 2
3. 3
4. 4

Question Type : **MCQ**

Question ID : **13332760**

Option 1 ID : **133327237**

Option 2 ID : **133327238**

Option 3 ID : **133327239**

Option 4 ID : **133327240**

Status : _____

Chosen option

Q.14 In "Lathyrism" the toxin present in the lathyrus seeds has been identified as :

- | | |
|--------------------------------------|-----------------|
| (1) Beta oxaryl amino alanine (BOAA) | (2) Terbutaline |
| (3) Chlorine | (4) Iodine |

Options 1. 1

2. 2
3. 3
4. 4

Question Type : **MCQ**

Question ID : **133327101**

Option 1 ID : **133327401**

Option 2 ID : **133327402**

Option 3 ID : **133327403**

Option 4 ID : **133327404**

Status : _____

Chosen option

Q.15 Which of the following statements are correct about Epstein Barr Virus (EBV) infections.

- (A) It is the cause of heterophile – positive infectious mononucleosis.
- (B) EBV spreads by contact with oral secretions.
- (C) Humoral immunity is more important than cellular immunity in controlling EBV infections.
- (D) Most EBV infection in infants and young children are either asymptomatic or mild.

Choose the correct answer from the options given below :

- (1) A, B, C only
- (2) A, C, D, only
- (3) A, B, D only
- (4) C, D only

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : 13332745

Option 1 ID : 133327177

Option 2 ID : 133327178

Option 3 ID : 133327179

Option 4 ID : 133327180

Status : _____

Chosen option

Q.16 Clinical Repertory by Clarke was published in the year :

- (1) 1904
- (2) 1924
- (3) 1908
- (4) 1939

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : 13332738

Option 1 ID : 133327149

Option 2 ID : 133327150

Option 3 ID : 133327151

Option 4 ID : 133327152

Status : _____

Chosen option

Q.17 The Rubric 'Convulsions with Consciousness' is mentioned in which of the following chapter of Therapeutic Pocket Book?

- (1) External head
- (2) Aggravations
- (3) Internal head
- (4) Sensations

Options 1.1

- 2. 2
- 3. 3
- 4. 4

Question Type : **MCQ**

Question ID : **13332748**

Option 1 ID : **133327189**

Option 2 ID : **133327190**

Option 3 ID : **133327191**

Option 4 ID : **133327192**

Status : _____

Chosen option

Q.18 Given below are two statements :

Statement I : First edition of Organon was published at Koethen.

Statement II : Hahnemann's articles on 'Aesculapius in balance' and "The Medical Observer" are regarded as precursor of First edition of Organon.

In the light of the above statements, choose the most appropriate answer from the options given below :

- (1) Both Statement I and Statement II are true
- (2) Both Statement I and Statement II are false
- (3) Statement I is true but Statement II is false
- (4) Statement I is false but Statement II is true

Options 1.1

- 2. 2
- 3. 3
- 4. 4

Question Type : **MCQ**

Question ID : **13332732**

Option 1 ID : **133327125**

Option 2 ID : **133327126**

Option 3 ID : **133327127**

Option 4 ID : **133327128**

Status : _____

Chosen option

Q.19 Barrett's oesophagus is characterised by :

- (1) Squamous metaplasia
- (2) Columnar metaplasia
- (3) Mesenchymal metaplasia
- (4) Atypical hyperplasia

Options 1.1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : 13332796

Option 1 ID : 133327381

Option 2 ID : 133327382

Option 3 ID : 133327383

Option 4 ID : 133327384

Status : _____

Chosen option

Q.20 Place the given stages of phagocytosis in the correct order of occurrence.

- (A) Formation of Phagolysosome
- (B) Adherence to Microbe
- (C) Destruction of Microbe
- (D) Ingestion to form a phagosome
- (E) Chemotactic attraction of phagocyte

Choose the most appropriate answer from the options given below :

- (1) (E), (D), (B), (C) and (A) only
- (2) (E), (B), (D), (A) and (C) only
- (3) (B), (E), (D), (A) and (C) only
- (4) (B), (E), (A), (D) and (C) only

Options 1.1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : 13332776

Option 1 ID : 133327301

Option 2 ID : 133327302

Option 3 ID : 133327303

Option 4 ID : 133327304

Status : _____

Chosen option

Q.21 Match List I with List II :

- | List I | List II |
|---|-----------------|
| (A) Tall thin irritable persons suffering from abuse of mercury | (I) Alumina |
| (B) Old people, weak vision, corpulent, tired of life | (II) Selenium |
| (C) Adapted to light complexion blondes, great emaciation of face, hands, legs and feet or single parts | (III) Aurum met |
| (D) "The Aconite of chronic diseases" | (IV) Arg. met |

Choose the correct answer from the options given below :

- (1) (A)-(III), (B)-(II), (C)-(IV), (D)-(I)
- (2) (A)-(IV), (B)-(III), (C)-(II), (D)-(I)
- (3) (A)-(III), (B)-(II), (C)-(I), (D)-(IV)
- (4) (A)-(II), (B)-(IV), (C)-(III), (D)-(I)

Options 1. 1

2. 2

3. 3

4. 4

Question Type : MCQ

Question ID : 133327120

Option 1 ID : 133327477

Option 2 ID : 133327478

Option 3 ID : 133327479

Option 4 ID : 133327480

Status : _____

Chosen option

Q.22

Match List I with List II :

List I	List II
(A) Skeletal muscle	(I) Lipoma
(B) Smooth muscle	(II) Teratoma
(C) Totipotent cells	(III) Leiomyoma
(D) Adipose tissue	(IV) Rhabdomyoma

Choose the correct answer from the options given below :

- (1) (A)-(IV), (B)-(III), (C)-(II), (D)-(I)
- (2) (A)-(III), (B)-(IV), (C)-(II), (D)-(I)
- (3) (A)-(II), (B)-(III), (C)-(I), (D)-(IV)
- (4) (A)-(IV), (B)-(II), (C)-(III), (D)-(I)

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : 13332799

Option 1 ID : 133327393

Option 2 ID : 133327394

Option 3 ID : 133327395

Option 4 ID : 133327396

Status : _____

Chosen option

Q.23 Given below are two statements with respect to clinical features of mesenteric cysts

Statement I : Mesenteric Cysts occur most commonly in children.

Statement II : The most common presentation is a painful abdominal swelling near the umbilicus.

In the light of the above statements, choose the correct answer from the options given below :

- (1) Both Statement I and Statement II are true
- (2) Both Statement I and Statement II are false
- (3) Statement I is true but Statement II is false
- (4) Statement I is false but Statement II is true

Options 1.1

- 2. 2
- 3. 3
- 4. 4

Question Type : **MCQ**

Question ID : **1333275**

Option 1 ID : **13332717**

Option 2 ID : **13332718**

Option 3 ID : **13332719**

Option 4 ID : **13332720**

Status : _____

Chosen option

Q.24 According to Hahnemann, which method of medicine administration was employed by Mongrel sect?

- | | |
|-------------------------------|------------------------|
| (1) Quid quid in buccam venit | (2) Aude sapere |
| (3) Duce natura | (4) Infinitesimal dose |

Options 1.1

- 2. 2
- 3. 3
- 4. 4

Question Type : **MCQ**

Question ID : **13332729**

Option 1 ID : **133327113**

Option 2 ID : **133327114**

Option 3 ID : **133327115**

Option 4 ID : **133327116**

Status : _____

Chosen option

Q.25 "Asthma worse in open air and sitting up and better by lying down and keeping arms stretched far apart" is a feature of :

- (1) Arsenicum album
- (2) Psorinum
- (3) Carbo Veg
- (4) Medorrhinum

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : 13332781

Option 1 ID : 133327321

Option 2 ID : 133327322

Option 3 ID : 133327323

Option 4 ID : 133327324

Status : _____

Chosen option

Q.26 Given below are two statements :

Statement I : The classic triad of congenital defects in "Congenital Rubella Syndrome" are deafness, cardiac malformations and cataracts.

Statement II : The Rubella vaccine should be given to every pregnant woman during early pregnancy.

In the light of the above statements, choose the correct answer from the options given below :

- (1) Both Statement I and Statement II are true
- (2) Both Statement I and Statement II are false
- (3) Statement I is true but Statement II is false
- (4) Statement I is false but Statement II is true

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : 133327110

Option 1 ID : 133327437

Option 2 ID : 133327438

Option 3 ID : 133327439

Option 4 ID : 133327440

Status : _____

chosen option :

Q.27 Wasting of the thenar eminence and positive tinel's sign are produced due to compression of :

- (1) Common peroneal nerve
- (2) Ulnar nerve
- (3) Median nerve
- (4) Lateral cutaneous nerve of thigh

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : **MCQ**

Question ID : **13332792**

Option 1 ID : **133327365**

Option 2 ID : **133327366**

Option 3 ID : **133327367**

Option 4 ID : **133327368**

Status : _____

Chosen option

Q.28 Which of the following are true?

- (A) The sites of olfactory transduction are the olfactory hairs
- (B) The olfactory bulbs transmit impulses to the temporal lobe of the cerebral cortex
- (C) The axons of olfactory receptors pass through the olfactory foramina in the cribriform plate of ethmoid bone
- (D) The olfactory nerves are bundles of axons that terminate in the olfactory tracts
- (E) Within the olfactory bulbs the first order neurones synapses with the second order neurones

Choose the correct answer from the options given below : 

- (1) (A), (B) and (D)
- (2) (B), (C), (D) and (E)
- (3) (A), (B), (C), (D) and (E)
- (4) (A), (C) and (E)

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : **MCQ**

Question ID : **13332777**

Option 1 ID : **133327305**

Option 2 ID : **133327306**

Option 3 ID : **133327307**

Option 4 ID : **133327308**

Status : _____

chosen option :

Q.29 Match List I with List II :

List I (Sign)	List II (Disease Association)
(A) Murphy's	(I) Iliopsoas Abscess, Perinephric Abscess
(B) Rovsing's	(II) Acute Cholecystitis
(C) Iliopsoas	(III) Acute Appendicitis
(D) Grey Turner's and Cullen's	(IV) Haemorrhagic pancreatitis, aortic rupture and ruptured ectopic pregnancy

Choose the correct answer from the options given below :

- (1) (A)-(I), (B)-(II), (C)-(IV), (D)-(III)
- (2) (A)-(II), (B)-(III), (C)-(I), (D)-(IV)
- (3) (A)-(IV), (B)-(I), (C)-(III), (D)-(II)
- (4) (A)-(III), (B)-(IV), (C)-(II), (D)-(I)

Options 1.1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : 13332789

Option 1 ID : 133327353

Option 2 ID : 133327354

Option 3 ID : 133327355

Option 4 ID : 133327356

Status : _____

Chosen option

Q.30 The 9th target of sustainable development goal 2030 is :

- (1) Strengthen the implementation of the World Health Organization framework convention on Tobacco control in all countries as appropriate
- (2) Strengthen the capacity of all countries, in particular developing countries, for early warning, risk reduction and management of national and global health risks
- (3) By 2030, substantially reduce the number of deaths and illnesses from hazardous chemicals and air, water and soil pollution and contamination
- (4) By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and mental health and well-being.

Options 1.1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Q.71 Match List I with List II with corresponding given single medicine in Kents Repertory

List I	List II
Rubric	Medicine in Kents Repertory
(A) Squanders money	(I) Syphilinum
(B) Benevolence	(II) Verat alb.
(C) Washing always her hands	(III) Lycopodium
(D) Power, love of	(IV) Coffea

Choose the correct answer from the options given below :

- (1) (A)-(II), (B)-(IV), (C)-(I), (D)-(III)
- (2) (A)-(II), (B)-(I), (C)-(IV), (D)-(III)
- (3) (A)-(III), (B)-(IV), (C)-(II), (D)-(I)
- (4) (A)-(III), (B)-(II), (C)-(IV), (D)-(I)

Options

- 1. 1
- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : 13332746

Option 1 ID : 133327181

Option 2 ID : 133327182

Option 3 ID : 133327183

Option 4 ID : 133327184

Status : _____

Chosen option

Q.72 Given below are two statements : One is labelled as Assertion (A) and the other is labelled as Reason (R).

Assertion (A) : Digitonin of Digitalis is an example of saponin with distinctive property of frothing.

Reasons (R) : Saponins are plant glycosides and they are non-crystalline and dissolve in water with colloidal solutions.

In the light of the above statements, choose the most appropriate answer from the options given below :

- (1) Both (A) and (R) are true and (R) is the correct explanation of (A)
- (2) Both (A) and (R) are true but (R) is NOT the correct explanation of (A)
- (3) (A) is true but (R) is false
- (4) (A) is false but (R) is true

Options

- 1. 1
- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : 13332715

Option 1 ID : 13332757

Q.98 Which among the following medicine does not belong to Compositae family?

- | | |
|--------------------|---------------------|
| (1) Arnica montana | (2) Bellis perennis |
| (3) Ledum palustre | (4) Millifolium |

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : **13332714**

Option 1 ID : **13332753**

Option 2 ID : **13332754**

Option 3 ID : **13332755**

Option 4 ID : **13332756**

Status : _____

chosen option :

Q.99 In preface of which edition of Organon, Hahnemann used the term 'a priori' while referring to Theoretical Medicine?

- | | |
|-------------------|--------------------|
| (1) First edition | (2) Second edition |
| (3) Third edition | (4) Fourth edition |

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : **13332727**

Option 1 ID : **133327105**

Option 2 ID : **133327106**

Option 3 ID : **133327107**

Option 4 ID : **133327108**

Status : _____

Chosen option

Q.100 Great sensitiveness to open air, putting the hand from under the bed cover brings on cough is a keynote of

- | | |
|----------------|--------------|
| (1) Pulsatilla | (2) Psorinum |
| (3) Rhustox | (4) Camphor |

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : **133327118**

Option 1 ID : **133327469**

Option 2 ID : **133327470**

Option 3 ID : **133327471**

Option 4 ID : **133327472**

Status : _____

chosen option :

Q.101 Given below are two statements :

Statement I : Hydrogen Sulphide interfere with cellular respiration by inhibiting the action of cytochrome oxidase.

Statement II : In Hydrogen Sulphide poisoning post mortem staining is of cherry red colour.

In the light of the above statements, choose the most appropriate answer from the options given below :

- (1) Both Statement I and Statement II are correct
- (2) Both Statement I and Statement II are incorrect
- (3) Statement I is correct but Statement II is incorrect
- (4) Statement I is incorrect but Statement II is correct

Options 1. 1

2. 2

3. 3

4. 4

Question Type : MCQ

Question ID : 13332767

Option 1 ID : 133327265

Option 2 ID : 133327266

Option 3 ID : 133327267

Option 4 ID : 133327268

Status : _____

chosen option :

Q.102

Remedies for erratic pains are

- (A) KALI BICH
- (B) SULPHUR
- (C) PULSATILLA
- (D) LAC CANINUM
- (E) NUX VOMICA

Choose the correct answer from the options given below :

- (1) A, B, C Only
- (2) A, C, D Only
- (3) A, D, E Only
- (4) B, C, E Only

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : 1333272

Option 1 ID : 1333275

Option 2 ID : 1333276

Option 3 ID : 1333277

Option 4 ID : 1333278

Status : _____

Chosen option

Q.103 Match List I with List II :

- | List I | List II |
|---|---|
| (A) Metallic Body Implants | (I) Yellow colored non chlorinated plastic bags |
| (B) Intravenous Tubes and Sets, Catheters, Urine bags | (II) Cardboard boxes with blue coloured marking |
| (C) Expired or discarded antibiotics, cytotoxic drugs | (III) Red colored non chlorinated plastic bags |
| (D) Wastes like Blood bags laboratory cultures | (IV) Autoclave safe plastic bags |

Choose the correct answer from the options given below :

- (1) (A)-(II), (B)-(III), (C)-(I), (D)-(IV)
- (2) (A)-(III), (B)-(II), (C)-(IV), (D)-(I)
- (3) (A)-(IV), (B)-(I), (C)-(III), (D)-(II)
- (4) (A)-(I), (B)-(IV), (C)-(II), (D)-(III)

Options 1. 1

2. 2
3. 3
4. 4

Question Type : **MCQ**

Question ID : **133327106**

Option 1 ID : **133327421**

Option 2 ID : **133327422**

Option 3 ID : **133327423**

Option 4 ID : **133327424**

Status : _____

Chosen option

Q.104 Recurrent episodes of macroscopic hematuria during or immediately following an upper respiratory infection in a feature of:

- (1) Lupus nephritis
- (2) IgA Nephropathy
- (3) Minimal change disease
- (4) Focal segmental glomerulosclerosis

Options 1. 1

2. 2
3. 3
4. 4

Question Type : **MCQ**

Question ID : **133327102**

Option 1 ID : **133327405**

Option 2 ID : **133327406**

Option 3 ID : **133327407**

Option 4 ID : **133327408**

Status : _____

Chosen option

Q.105 Ependymal cells are the cells :

- (1) that secrete cerebrospinal fluid
- (2) that secrete and maintain myelin in the peripheral nervous system
- (3) whose foot processes form the blood brain barrier
- (4) that remove bacteria and damaged tissue in the central nervous system

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : 13332780

Option 1 ID : 133327317

Option 2 ID : 133327318

Option 3 ID : 133327319

Option 4 ID : 133327320

Status : _____

Chosen Option : --

Q.106 Which are the non-articular manifestations of rheumatoid arthritis?

- (A) Pericarditis
- (B) Sjogren's syndrome
- (C) Cervical myelopathy
- (D) Z-deformity

Choose the correct answer from the options given below :

- (1) (A), (B), (D) only
- (2) (A), (B), (C) only
- (3) (B) and (A) only
- (4) (B), (C), (D) only

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : 13332785

Option 1 ID : 133327337

Chosen option

Q.118 Given below are two statements : One is labelled as Assertion (A) and the other is labelled as Reason (R).

Assertion (A) : Adrenogenital syndrome is a cause for female pseudo hermaphroditism.

Reasons (R) : It is inherited as X-linked recessive gene which causes diminished response to androgens

In the light of the above statements, choose the most appropriate answer from the options given below :

- (1) Both (A) and (R) are correct and (R) is the correct explanation of (A)
- (2) Both (A) and (R) are correct but (R) is NOT the correct explanation of (A)
- (3) (A) is correct but (R) is not correct
- (4) (A) is not correct but (R) is correct

Options

- 1. 1
- 2. 2
- 3. 3
- 4. 4

Question Type : **MCQ**

Question ID : **13332762**

Option 1 ID : **133327245**

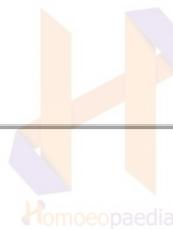

Option 2 ID : **133327246**

Option 3 ID : **133327247**

Option 4 ID : **133327248**

Status : _____

Chosen option

Q.119 Given below are two statements : One is labelled as Assertion (A) and the other is labelled as Reason (R).

Assertion (A) : Water soluble hormones acts on its target cell through second messenger system.

Reasons (R) : The hormone receptor complex on the cell membrane activates G proteins thereby activating adenylate cyclase and catalyzing conversion of ATP to cAMP which activates protein kinases.

In the light of the above statements, choose the most appropriate answer from the options given below :

- (1) Both (A) and (R) are correct and (R) is the correct explanation of (A)
- (2) Both (A) and (R) are correct but (R) is NOT the correct explanation of (A)
- (3) (A) is correct but (R) is not correct
- (4) (A) is not correct but (R) is correct

Options 1. 1

2. 2

3. 3

4. 4
